CONVICTED CONTRACTOR HAS
MADE A STARTLING
CONFESSION.

HE IMPLICATES BOSS'S LAWYERS

Price to Be Paid Briber \$10,000, and
the Sum of \$100 Monthly to
His Wife While He Was
in Penitentiary.

San Francisco, Oct. 30.—Forming another sensational chapter in the municipal bribery graft cases growing out of the "Schultz" board of supervisors by Abraham Ruef, the former political boss, and the resultant grand jury indictments and prosecution, E. A. S. Blake, a contractor, yesterday confessed in open court that he had, at the instigation of A. S. Newburgh and Frank J. Murphy, two of Ruef's attorneys, attempted to bribe John M. Kelly with an offer of \$10,000 to get on the jury now being secured to try Ruef on the charge of bribery and vote for his acquittal.

Blake also made the statement that after his arrest and conviction, Murphy came to him and was to put \$10,000 in the hands of a third party, to be paid to Blake immediately after he was sentenced, and that his wife was to receive \$100 a month during the time that he was serving his sentence in the penitentiary, if Blake would "keep quiet" and did not implicate Murphy and Newburgh.

The \$10,000 in promissory notes signed by Ruef and indorsed by his father and his sister, and made payable to Murphy, the prisoner declared, was now in the hands of a third party which had been named by him to receive it and hold it subject to his order.

Blake had been convicted of attempting to bribe John M. Kelley, a venireman drawn on the panel of the Ruef jury, and was about to be sentenced by Judge Frank H. Dunne, when he said he had a statement to make.

The disclosures made by Blake came as a surprise to his counsel, but was not entirely unexpected to the crowded court room, as it had been rumored for some time that he would "come through" and be a witness for the prosecution against Newburgh and Murphy, both of whom are under indictment on the same charge of which Blake was convicted.

Blake's wife arose in the court and protested hysterically with "No, no," when Judge Dunne called upon her husband to "stand up" that judgment might be passed upon him. She was led out by a deputy sheriff.

His face was pale, but calm, possessed, and with a demeanor that indicated he had prepared himself for the ordeal. Blake, in calm voice, told of his participation in the attempt to bribe Kelly, prefacing it with the statement that he had been promised no reward or immunity, and that his confession was freely and voluntarily made.

At the earnest request of District Attorney Langdon, Judge Dunne, after broadly intimating that Blake's confession would not influence the court in passing a severe sentence upon the contractor for a crime which he characterized as "one of the most serious under the law," postponed sentence for two weeks.

In the court room of Judge Lawler, just across the corridor, where the attorneys on both sides are now in the third month of securing a jury to try Ruef, had just passed the twelfth man, the news of Blake's confession caused consternation to the defense. Ruef paled visibly, but otherwise showed no emotion, and immediately engaged in a whispered conversation with his attorneys, Henry Ach and Thomas B. Dozier.

A block away Frank J. Murphy and A. S. Newburgh were nervously pacing the corridor in front of Judge Murasky's court room, waiting to hear "what happened in the Blake case," while their attorneys were arguing on the motion to set aside the indictments against them, which was denied.

With the twelfth man temporarily passed at noon by both sides, subject only to the peremptory challenge remaining to the prosecution, Assistant District Attorney Francis J. Heney caused a sensation in Judge Lawler's court last afternoon, when he asked the court to excuse the jury until today, excepting George H. Cross, one of the first of the jurors sworn in, who was ordered to remain.

When the other jurors had left great will be his joy.

the court room, the assistant district attorney asked the court for permission to reopen the examination of Cross on the ground that he testified falsely while qualifying.

AND MISS RUBY RILEY,
OF SEDALIA.

REV. F. S. NEIBERG TO OFFICIATE

Will Be Married at Nuptial Mass at
Sacred Heart Church on Wednesday
Morning, November 11,
at Seven O'clock.

William J. Katzer, an M. K. & T. painter at the local shops, and Miss Ruby E. Riley will be united in marriage at nuptial mass, at Sacred Heart church, at 7 o'clock on the morning of Wednesday, November 11.

Emil Katzer, brother of the groom-to-be, will serve as groomsmen and Miss Ida Lennartz as bridesmaid. Rev. Fr. S. Neiberg will perform the ceremony and immediately afterwards a wedding breakfast will be served to the bridal party and choir at the home of Miss Riley's aunt, Mrs. Hattie M. Adams, 600 West Second street.

The bridal couple will leave that day for a ten days' honeymoon tour of Texas, after which they will return here to make their home at 202 South Grand avenue.

Mr. Katzer is a worthy young gentleman, a son of William Katzer, of 702 Wilkerson avenue. He is an industrious and well liked young man and every acquaintance will join in extending congratulations.

Miss Riley makes her home with her aunt, and is one of the Queen City's sweetest and most affable young ladies and heartiest congratulations will be extended to her and the young man whose name she is to bear for life.

SHE SENT POISONED CANDY

San Francisco, Woman Sentenced to
Life Imprisonment.

San Francisco, Oct. 30.—The district court of appeals yesterday affirmed the judgment of the lower court in the case of Cordelia Botkin, who was convicted in 1904 of murder in the first degree and sentenced to life imprisonment.

Mrs. Botkin was convicted of the murder of Mrs. J. P. Dunning, of Dover, Del., by means of poisoned candy sent through the mails from this city.

PLEDGE IS NOT BINDING

Supreme Court Knocks Out Senatorial
Primary.

Bismark, N. D., Oct. 30.—Members of the legislature will not be compelled to carry out their pledge to vote for the successful candidate at the primary senatorial election next Tuesday.

The supreme court yesterday decided as unconstitutional the pledge feature of the primary law as it relates to the popular election of United States senators.

THE LAST STAND

FEUDIST IS FOUND DEAD

A BULLET IN BRAIN OF ALBERT
ALBRIGHT, RAY COUNTY
SCHOOL TEACHER.

MYSTERY IN THE ASSASSINATION

Body Discovered Near Farm of Man
Whose Eye He Shot Cut
Near Lawson, Mo., Two
Years Ago.

Lawson, Mo., Oct. 30.—Albert Albright, a school teacher, who for two years, it is alleged, has feared violence at the hands of John Whitsett, a farmer, whom Albright shot in a quarrel over a line fence two years ago, was found dead with a bullet hole through his head, by the side of a road four miles northeast of Lawson, near the Whitsett farm, at dusk yesterday.

Albright had been driving, but when shot evidently was thrown from the buggy by the horses, which ran away, leaving him dead by the roadside, to be found by Wick Does, a farmer. No arrests have been made yet.

Two years ago Whitsett and the dead man clashed with serious results. Trouble over the location of the line fence between the two farms culminated in bloodshed at the fence one day. It was said that Whitsett attacked Albright with a stone and that Albright shot Whitsett, putting out one of his eyes.

Albright was arrested, but acquitted. Ever since he was shot Whitsett is said to have acted queerly at times and has the reputation of having "spells," during which he is not responsible for his actions.

Albright taught the Mound district school, ten miles from Lawson. It is said that he usually went armed. He was unmarried and lived on a farm a mile from where his dead body was found. He was about 30 years old.

John Whitsett is 40 years old and has a wife and large family. The feud between the two has been common gossip in this vicinity.

ADAGIO CLUB REORGANIZES

Mrs. John McGrath Was Hostess Yesterday Afternoon.

The Adagio club was reorganized at the home of Mrs. John McGrath yesterday afternoon. Mrs. S. G. Kelly being elected president and Mrs. Horace Knight secretary.

After the reorganization cards fur-

ished the amusement, Miss Leona McVey winning the club prize, a cut-glass hair receiver, while the guest prize, a cut-glass powder tray, went to Miss Stella Hurley.

Refreshments of oyster patties, cheese straws, pickles, potato chips and orange sherbet were served.

Mrs. William Astor Critically Ill.

New York, Oct. 30.—Mrs. William Astor, who is over 80 years old and who for twenty years was the lady of New York society, is critically ill of heart affection at her Fifth avenue home here. Several relatives have been summoned.

MISSOURI QUAKE PERIL

THOSE WHO WENT THROUGH
THE 1811 SHOCK FEAR EARLY
DESTRUCTION.

MISSISSIPPI RIVER BED IS BARRED

Reelfoot Lake, the Scene of the Recent
Night Rider Violence, Is
Formed by the Old
Disturbance.

Paducah, Ky., Oct. 30.—Residents of Western Kentucky, who reside along the Mississippi river and the people across the river in Missouri are greatly excited over the earthquake shocks that have occurred this week in that section, preceded by one or two big landslides, fearing that there will be another disastrous earthquake similar to that of 1811, when Reelfoot lake was formed, and when the Mississippi river was rocked until the water overflowed all of that country and at times the bottom of the river was exposed.

It is said that this earthquake changed the course of the Mississippi.

A few days ago there was an immense landslide near Cape Girardeau, Mo., which carried thousands of tons of soil into the river. The earth in that section has huge cracks in numerous places, and new ones are forming all the time. Those versed in geology say this is caused by a disturbance in the earth.

Light earthquake shocks were felt in that section Tuesday, being reported from Cairo, Ill., Wickliffe, La-center, Hickman, Ky., and other points.

The ladies of the First Christian church will give a Halloween social at the church parlors Saturday night.

IT'S COWHERD BY 30,000

THE HONORABLE DAVID A. BALL
MAKES PREDICTION ON
THE ELECTION.

ON HIS WAY TO THE STATE CAPITAL

Also Believes That Adlai E. Stevenson
Will Be Elected As Gov.
Deneen's Successor
in Illinois.

St. Louis, Mo., Oct. 30.—David A. Ball predicts the election of William S. Cowherd by 30,000 and Bryan and the democratic ticket will carry the state by that figure, he says.

Mr. Ball, who was on his way to Jefferson City last night, stopped over at the Laclede hotel long enough to converse with friends. He had spoken yesterday in Pittsfield, Ill., for Bryan and Stevenson. He will appear before the supreme court today in the election fraud cases.

Mr. Ball said he was not going to Jefferson City to injure the democratic ticket, but wanted to punish the republican election crooks, as well as the democrats, who were responsible for frauds in the primary. He added that there would be no more thunder in his remarks for the republicans than for the democrats.

Mr. Ball believes that Adlai E. Stevenson will be the next governor of Illinois. He said that the enthusiasm in Illinois for Stevenson was very marked, while Deneen seems to have lost prestige all along the line.

PATIENT RUNS FOR HELP

Spokane Doctor Drops Dead Beside
Operating Table.

Spokane, Wash., Oct. 30.—Apparently in good health and in the act of making a medical examination, Dr. Edwin S. Hutchins dropped dead of heart failure beside the operating table in his office yesterday.

The patient who was on the operating table, rushed from the office and summoned a druggist, but the physician was dead.

KILLS STEPFATHER IN DUAL

Louisiana Youth Victor in Bloody
Pitched Battle.

Covington, La., Oct. 30.—Following a quarrel here yesterday between John Balkely, about 40 years old and his stepson, James Erwin, a mere

youth, both secured weapons and fought a pitched battle.

The boy used a shotgun and his stepfather fell mortally wounded and died shortly afterward. Young Erwin was acquitted by a coroner's jury.

Railroad Lecture Postponed.

Pastor J. J. Setliff, of the East Broadway Christian church, postponed his lecture on "The Gospel Railroad" because of the inclement weather from last Sunday evening until next Sunday evening at 7:30. This lecture is given from a large wall chart illustrating the subject, and will be free to all who wish to hear a good lecture on a highly interesting subject.

JOHN D. IS FOR MR. TAFT

HEAD OF STANDARD OIL COMPANY ANNOUNCES SUPPORT
OF ROOSEVELT'S MAN.

MACK SAYS ITS RESULT OF DEAL

Also Charges That Republicans Have
Millions of Dollars Which They
Will Use for Purposes of
Corruption.

Chicago, Oct. 30.—A dispatch to the Record-Herald from New York today says:

John D. Rockefeller gave out an interview this morning, saying that he intended to vote for Taft for president. Mr. Rockefeller is quoted as saying:

"If for no other reason, I support Judge Taft, because, comparing him with Mr. Bryan personally, I find the balance of temperament and fitness entirely on his side."

Charges were made today by Norman B. Mack, chairman of the national democratic committee, that the declaration of Rockefeller for Taft is the result of a deal between the republican national committee and the Standard Oil interests.

He said that undoubtedly the twenty-five million dollar fine would be fixed in the event of Taft's election. He also declared that he had learned that the republicans had a campaign fund of \$3,000,000, that \$2,000,000 are being used for purposes of corruption and bribery, and that \$200,000 had been sent into Indiana and more into Ohio to carry the states, no matter what the cost.

HEAD MYSTERY CLEARED

A Physician's Son in Michigan Had
It for Scientific Purposes.

Adrian, Mich., Oct. 30.—Dr. S. A. Bryant, of Dowagiac, Mich., a son of the late Samuel Bryant, said over the long distance telephone last night that the head found in a sack here yesterday was one of several that he had in his possession when he lived at his father's home in Adrian for scientific purposes.

BURGLARS LOOTED CHURCH

Gold and Silver Altar Ornaments
Stolen in New York.

New York, Oct. 30.—The Rev. J. A. McCleary, pastor of the Episcopal church of the Good Shepherd at Fort Lee, assisted by many of his parishioners, was searching yesterday for a gang of burglars who looted the church and carried away property valued at several hundred dollars.

GET 280 PERSONS IN BAIL

Alleged Pool Room Patrons Arrested
by New York Police.

New York, Oct. 30.—Two spectacular raids of alleged pool rooms were made yesterday by the police at different places on the east side of the city. In the aggregate, 280 prisoners were taken.

The Burial of an Infant.

The funeral of James Emory Thomas, the one-month old son of Mr. and Mrs. E. M. Thomas, who died yesterday, was held from the family residence on West Fourth street at 1:30 o'clock this afternoon, and burial was made in Crown Hill cemetery. Rev. F. Y. Campbell conducted the services.

THE DEMOCRATIC LEADER HAS
STARTED ON HIS TRIP
THROUGH WEST.

TAFT STILL IN THE EMPIRE STATE

Still Frightened Republicans Are
Laboring to Save the State From
Inevitable Landslide on
November 3d.

New York, Oct. 30.—Candidates Taft and Bryan, after an almost hand-to-hand struggle last night for support in Syracuse and Onondaga county, parted company today and probably will not again come within point-blank range of each other during the remainder of the campaign.

Taft still remains in hotly-contested New York state, while Bryan has started to take a hand in the fight in Ohio, Indiana and Illinois, traveling today through Ohio.

Taft, after a number of addresses en route, will attend a night meeting at Buffalo. Sherman will meet Taft at Utica and speak tonight at Oneonta.

Kern still continues to tour Indiana, which state Bryan reaches tomorrow.

Indiana is also a center of activity today for Chafin and Watkins. It has been announced that the Independence party campaign will close with a big meeting in Brooklyn tonight, and another tomorrow night at Carnegie hall, Manhattan, with Hisgen, Graves and Hearst at both.

Debs left Chicago this morning for a tour of Wisconsin in his "red special" and will speak at Woodstock, Ill., where he was confined in jail following the American Railway Union strike years ago.

YOUTH ALONE SAVED HIM

Lester Buckner, a Negro, Charged
With Illegal Voting.

The preliminary examination of Lester Buckner, a negro, arrested on complaint of C. S. Williams, who accused him of having voted illegally at the city election on April 7, last, was held before Judge Leaming today and the prisoner was discharged. In the information Buckner was charged with having been convicted of petit larceny in Judge N. H. Rogers' court in 1903. Buckner testified that at the time he was not 20 years of age and in accordance to the law he was discharged.

AFRAID TO DECIDE NOW

District Court in Washington Post-
poned Consideration of Gates.

Washington, Oct. 30.—Notwithstanding the efforts of labor leaders to have the question decided before election, Justice Wright, in the district supreme court, today postponed until November 10 consideration of the cases against Samuel Gompers, John Mitchell and Frank Morrison, charged with contempt of court in connection with the Buck Stove and Range company.

KILLED IN HIS CELL

Tennessee Murderer Resisted Mob
and Was Shot to Death.

Kingston, Tenn., Oct. 30.—A mob of thirty men attacked the Rone county jail after midnight and killed George Cook, who was held on the charge of murdering John King a few weeks ago. The mob had a rope and intended to hang him, but Cook resisted and was shot in his cell.

The Funeral of Mrs. Blocher.

The funeral of Mrs. M. J. Blocher will be held from the First Congregational church at 2:30 o'clock tomorrow afternoon. Rev. James Parsons will officiate and Mrs. C. H. Bard will be in charge of the music, but the pallbearers have not yet been selected.

The following non-Sedalians are here to attend the funeral: Mr. and Mrs. J. T. Woodling, of Kansas City, the latter a sister of deceased; Messrs. W. H. and S. Kunkel, of Peru, Ind., brothers of Mrs. Blocher. Mrs. Matt Lucy, of St. Louis, will arrive tomorrow.

WATTERSON CHEERFUL.

Louisville Courier-Journal: We do
not believe the people can—yet—be
bought, or tamboozled, though the
means of doing both are abundant and
obvious. We believe that, in spite of
the diversions of Hearstism and Deb-
ism—in spite of the millions poured
out of the coffers of the predatory
rich, buying immunity by secret con-
tributions to the republican campaign
fund, and in spite of the Taft-Sinton
millions poured out freely to put a
Taft in the White House and thus to
keep a patrician family at the front—
in spite of all these things, including
the self-righteous screaming of the
president and the self-accusing prom-
ises of reform from Cannon and Dal-
zell, Aldrich and Sunny Jim Saeman—
the people, the plain, calm, sober
unselfish people, republicans no less
than democrats, will recognize the
dangers and it the polls before it is
too late to discriminate between the
spurious and the true.

Bryan is but an atom, but he is an
atom of good red blood. Taft is but
an atom, but for all his gilding, an
atom of steel and iron. The cry of
the one is "Back to the constitution."
The cry of the other is "Help me.
Roosevelt; help me, Carnegie—help
me, Corey, Harriman, anybody—or I
sink, and with me republicanism and
its ways, which are the protected mo-
nopolies, and all its paths, which lead
through trustism to office!"

This is the one paramount issue
of the campaign and our faith is
strong that the people understand it,
and will act upon it.

THE DEPOSIT PLAN.

Judge Martin J. Wade, chairman of
the labor committee at democratic
national headquarters, who is receiv-
ing the replies of the bankers' poll
with reference to the guarantee of
bank deposits, which seems to be
overwhelmingly favored, adds this to
former reports:

"From the advice we receive upon
the bank guaranty issue and the
strenuous demand for literature on
the subject, I am satisfied that we
have at last produced the greatest
cue for insomnia that the world
has ever known. We are having let-
ters from depositors who say that
they have laid awake nights fearing
that the next morning they would be
parapets."

"We are receiving letters from
bankers who say that many a night
during the past year they would
have given \$5,000 for a guaranty law
for thirty days. The peril that hangs
over the banker in every little panic
is that, without a moment's warning,
a run may be made upon the bank,
caused by the failure of some bank-
ing institution perhaps in some other
city."

"I tell you that if we get this law
there will be less demand for spe-
cialists who cure nervous prostration

and who advertise bairns for the
sleepless."

The American Audubon society
has secured a perpetual lease of an
island on the Maine coast, where
will be maintained a refuge and
breeding place for elder ducks. The
birds are in a fair way to be exter-
minated in that latitude without some-
thing being done in the way of pro-
tection, and the Audubon society has
taken a step which promises excel-
lent results. The elder ducks, because
of the high esteem in which the
down is held, is capable of attaining
commercial importance.

A notable feature is to be added
to the display at the National muse-
um at Washington. The officials of
the museum and of the Smithsonian
institute are arranging for an exhibi-
tion of models of various aeroplanes,
dirigible balloons and other flying ma-
chines. This will be the first collec-
tion of the kind ever brought togeth-
er and will illustrate in a striking
manner the development of aviation,
while there is no doubt that for visi-
tors it will be one of the most attrac-
tive parts of the great show.

William E. Corey, head of the steel
trust, brusquely inquires: "Who is
Kern, anyway?" At last accounts, Mr.
Kern was a home-loving christian
gentleman, of Indiana, who had never
divorced his wife in order to mar-
ry a dizzy chorus girl.

The country needs a change in the
halls of congress. This is conceded
on all sides, and unless there is a
change the country will go on in the
same jog trot style until the trusts
have swallowed up everything worth
having.

SWEETHEARTS IN INDIANA

A Wyoming Girl Weds Joe Fanning
in New York.

New York, Oct. 30.—Here is a bit
of sound news that will cause no end
of congratulations to speed from the
west to the east.

In the Church of the Holy Innocents
yesterday, Miss Williamette Marie
Martin and Mr. Joseph T. Fanning, of
Indianapolis and New York, were
married.

The bride is a resident of Cody,
Wyo., and formerly lived in Indianap-
olis. Mr. Fanning is the president
of the Eastern Securities and Finance
company and a business representative
of the Belmonts. He came to
New York four years ago.

In the presidential campaign of
1904 Mr. Fanning was the secretary
and confidential adviser of Thomas
Taggart, then chairman of the demo-
cratic national committee. He was
also grand exalted ruler of the Elks
of the United States at the time of
their great gathering in Cincinnati.

Mr. and Mrs. Fanning will make
an extended trip through the west
and will then return to this city,
where they will reside permanently.

IRELAND'S NEED OF FORESTS

Like United States, She is Late in
Waking Up to Her Sins.

Ireland has awakened to the nation-
al value of her forests, but so late that
radical measures will now be neces-
sary to make up for past neglect. A
commission appointed by the crown
to investigate the condition of Ire-
land's forests and to suggest measures
for bettering it has just made public
its report.

The commission outlines and vigor-
ously urges the adoption of a large
scheme for the state to plant about
700,000 acres with forest trees. This,
with the 300,000 acres of existing for-
est, would give Ireland 1,000,000 acres
of forest land, an essential for the
agricultural and industrial require-
ments of the country.

About 20,000 acres of this would be
purchased by the state in mountain-
ous and rough regions and managed
as state forest, says Harper's Weekly.
While 500,000 acres, chiefly in small
blocks, could be planted by the state
but managed by private owners or by
county councils.

chase acts much woodland formerly

there is now opportunity for the gov-
ernment to acquire woods and land
suitable for forests make it especially
urgent for the state to take immediate
action.

To show that such a scheme of land
acquisition and planting is not imprac-
ticable the commission cites the case
of Denmark, an agricultural country
half the size of Ireland, which since
1881 has increased her forests by 175,

HADLEY'S GOOD MEETING

NEW SEDALIA THEATER WELL
FILLED TO HEAR THE
CANDIDATE.

BLACKS CROWD THE LOWER FLOOR

They Also Sat on the Stage With the
Orators of the Evening—Mr.
R. R. Brewster, of Kansas

Attorney General Herbert S. Had-
ley, republican nominee for governor,
addressed a large audience at the
Sedalia theater last night.

Preceding the speaking the repu-
blican Flambeau club with the Second
Regiment and Camp Branch bands,
paraded the streets and gave a dis-
play of fireworks. A large number
of democratic voters and women
were in the theater, curious to hear
the gubernatorial candidate.

A feature of the meeting was the
entrance of the Lincoln club, thirty-
two members, all of whom voted for
Abraham Lincoln in 1860. These vet-
erans, bearing a Lincoln rail, march-
ed down an aisle reserved for them
and were given seats of honor.

Capt. W. A. Fast presided as chair-
man of the meeting and introduced
the speakers.

For the first time in Sedalia's his-
tory at a political meeting
negro men and women were ad-
mitted to the first floor of the the-
ater, scores of them getting the best
seats beside the white men, and wo-
men present. Negro politicians oc-
cupied seats on the stage with the lo-
cal white party leaders.

Mr. Hadley followed the same line
of talk he has been making through-
out the campaign, giving no better
reason for his election than that
frauds had been committed in the pri-
maries at St. Louis and Kansas City.

Abuse of Mr. Cowherd was omitted
here, the candidate seeming to know
that the democratic candidate has
many friends and staunch supporters
here.

Mr. Hadley never once mentioned
his national ticket, neither Taft nor
Sherman receiving one word of com-
mendation, and both the state and na-
tional platforms were entirely ig-
nored.

Mr. Hadley's voice was in bad con-
dition. He talked for short time only,
being followed by R. R. Brewster, of
Kansas City.

"THAT'S MY LAST DRINK"

Said the Farmer, Who Took First One
35 Years Ago.

Marion, Ohio, Oct. 29.—Thirty-five
years ago, when Edmond Molloy
opened a saloon here, a young man,
now one of the county's wealthy far-
mers, bought the first drink sold over
the bar.

Yesterday, when Molloy closed his
place to avoid rowdiness on account
of it being the last day to sell booze
as a result of the local option elec-
tion, the same farmer dropped into
his saloon and requested to be sold
the last drink.

Molloy promised, and the man hung
around to buy the final "shot." When
he drank it he said: "That's my
last."

PAPER TRUST'S PRAISE

Extended to Republican Congress for
Standing Pat.

New York, Oct. 30.—The American
Paper and Pub association has issued
a circular letter to its members prais-
ing the republican congress because
it staunchly withstood the clamor of
the press for the removal of the duty
on paper and pulp, calling upon the
paper manufacturers to work for the
republican ticket because the republi-
can congress resolutely stood by the
paper trust in the face of the demand
of the press to put white paper and
wood pulp on the free list.

The petition to congress to relieve
the press from the exactions of the
paper trust was endorsed by the Pub-
lishers' Association of America, com-
posed of papers of all political parties.

CIGARETTES FOR WOMEN

THREE SMOKES EACH DAY WILL DRIVE FEMININE CARES AWAY, DOCTOR SAYS.

CLAIMS IT IS GOOD FOR NERVES

Another Physician Declares Stays Are Necessary to Woman's Form —St. Louis Women Object to Tobacco.

If tobacco hath charms to soothe the nerves of a man it is equally good for a woman, according to a Philadelphia physician, who says if women get up in the morning feeling all out of sorts and wondering how they are going to get through the day's work, they should smoke a cigarette. Take this dose three times a day and they will feel like a new woman.

Another good treatment is the corset, according to Dr. L. E. Landone, of Los Angeles, in an address to the Hundred Year club, a prominent woman's organization. He says corsets are good for women, because their torso muscles have been weakened by generations of corset wearers, until now the average feminine form can not support itself properly without them.

Here is a dispatch on the cigarette topic from Philadelphia, dated the 29th:

Rachel S. Skidelsky, one of the best known women physicians of Philadelphia, after startling the Woman's club yesterday by defending the tobacco habit among men, startled it still more by advocating the use of cigarettes by women.

Many physicians held similar views, Dr. Skidelsky said, but hesitated to advise their women patients to smoke because of the fear that what is offered as medicine might become a habit.

"I feel sure," Dr. Skidelsky said, "that tobacco, if pure and properly used, might be beneficial to women. It is known to be valuable in functional disorders and nerves. As men find it valuable to soothe their nerves against cares and worries, I do not see why women, whose worries are more numerous, and whose nervous organization is more delicate, should not find benefit in its proper use also."

"I think that if a woman should sit down for five minutes before beginning her day and give the time to a cigarette she would be able to plan better her day's work. And the five minutes thus used, three times daily, would be, I think, of much benefit to her."

Here is a paragraph from the St. Louis Times of last afternoon on the subject:

"Lady Nicotine" has a bad influence on women, racks their nerves, makes them even more irritable when in the dumps, and disturbs conventions, declare St. Louis women and men physicians, notwithstanding the declaration of Dr. Rachael Skidelsky, of Philadelphia, that smoking, under proper conditions, is beneficial to the gentler sex.

WOODMEN ABANDON SUIT

LOSSES IN CHARITON, IA., BANK FAILURE TO BE BORNE BY THE ORDER.

HAD SUM OF \$350,000 ON DEPOSIT

Woodmen Must Take Their Place in Line With Other Depositors, Faring Neither Better Nor Worse.

Chariton, Ia., Oct. 30.—The suit of the Modern Woodmen of America to establish its \$350,000 deposit in the defunct First National bank of Chariton as a preferred claim has been dropped, following a conference of the interested attorneys and the receiver.

Under an agreement which was reached this \$350,000 deposit will take its place with the other deposits—neither better nor worse—and it will share equally with them in the distribution of the assets.

In this connection it was announced also that Receiver Jamison would pay the first dividend to depositors in another week or ten days.

He has in hand approximately \$250,000 for the first dividend, which will pay about 25 per cent of the claims.

It is expected that enough more will be realized from the various assets to make an additional 15 per cent dividend later on, a total of 40 per cent, or about \$100,000 in all.

MAKING GREAT CITY

SPLENDID WORK IN BEAUTIFICATION OF WASHINGTON.

Commission Has Already Spent \$25,000,000 in Much Needed Improvements—Slums Are to Be Put Out of Existence.

Rapid progress has been made in the systematic beautification of Washington in the last five years, in accordance with the plans of the Burnham commission, which involves an ultimate expenditure of \$50,000,000, of which nearly one-half has already been devoted to enhancing the aspect of several sections of the national capital. The splendid railway terminal, inferior to none on the globe; the huge senate and house office buildings, second in importance only to the capitol itself, with which they form an unsurpassed architectural group; the huge National museum and the department of agriculture near by in the Mall, and the superb library of congress, at last give definition of the comprehensive project for making the city that belongs to the whole country worthy of a great, progressive people.

Within a few years from now Washington's chief slums, in the triangular tract from the capitol to the treasury, lying between Pennsylvania avenue and the Mall, will have given way to a chain of parks surrounding notable public buildings. The post office and the municipal building have already risen in this section, and congress at its last session appropriated \$2,500,000 for acquiring another huge slice, upon

which is to be erected a group of structures for the departments of state, justice and commerce and labor. The private owners of this property having failed to offer their holdings at reasonable prices, condemnation proceedings have been promptly instituted, and within another year it is hoped one of the glaring eyesores of the city, only a few hundred yards from the White House, will be obliterated.

The expenditure now being judiciously made by the government will result in a vast annual saving of money, for the executive departments are now paying such extortionate rentals for office quarters that the new buildings will save their own cost within a decade.

For many years the state department has been housed in the smallest corner of the edifice known as the state, war and navy building, although the two military arms of the government have gradually encroached on the state department until there is hardly space for an additional employee and little left but the name. Even some of the more important officials are compelled to transact delicate international matters within earshot of half a dozen persons, the clerical force is actually without elbow room. The congestion also affects the war and navy departments, which has overflowed into a number of rented buildings, and both of these welcome the day that Secretary Root, with the valuable archives, and assistants go to a home of their own.

WHAT DOCTOR DIAGNOSED.

Must Decide on Treatment, But It Would Be Fatal Anyway.

Prof. Koch, the famous investigator of sleeping sickness, according to the Washington Sun, said of an old-fashioned doctor at a musical given by Andrew Carnegie in his honor in New York:

"Yes, Dr. Blank's methods were old-fashioned, prosy, pompous, nonsensical. You know, at Heidelberg they tell a story about him—a story in illustration of his way of working.

"A man, according to the story, fell over a cliff in an automobile and a steel bar eight feet long was run through his body so that three feet of the bar protruded from his stomach and three feet from his back.

"Dr. Blank was sent for. He looked at the spitted patient and said:

"Where is the complaint?"

"It is in my stomach, sir," was the reply.

"How did it happen?"

"The man explained the accident in detail.

"Humph!" said Dr. Blank. "As to heredity, did any members of your family ever suffer a similar accident?"

"No, sir, none," the patient answered.

"Very good," said Dr. Blank. "You see, we require a knowledge of all these details in order to form a correct diagnosis. So far, so good."

"He looked at the patient thoughtfully.

"You find some difficulty in lying on your back?" he said.

"I can't lie on my back at all, sir."

"And I suppose you are no easier on the stomach?"

"Oh, no."

"In short," said Dr. Blank, "you are most comfortable on your side?"

"Yes, sir. That is the only position, to tell the truth, that I am able to maintain."

"Exactly," said the doctor in a triumphant voice. "We have now only to settle upon the treatment. Here is the case in a nutshell: Either we leave the bar where it is, in which case inflammation will set in and you will probably die, or we extract it, an operation that is likely to prove fatal.

GET BUSY, DOCTOR

In a recent issue of the American Journal of Clinical Medicine, the editor takes occasion to remind physicians of a number of instances, common to the practice of all, when quick, decisive action is necessary. Among other recommendations, it says:

"Get busy when a patient comes to you with a cough. It may be only a cold, but then a cold may be the precursor of pneumonia, or the cough an early symptom of pulmonary tuberculosis."

To break up a cold quickly and cure any cough that is curable, there is no more effective remedy than the mixture of two ounces of Glycerine with eight ounces of good Whiskey and a half-ounce of Virgin Oil of Pine compound pure. Take a teaspoonful every four hours. This formula is as inexpensive as it is effective, because the mixture provides a quantity sufficient to last the average family an entire year. Where Whiskey is not readily obtainable, five ounces of tincture of Cinchona compound can be used instead with equal effect. It is better to purchase the ingredients separately and prepare the mixture at home.

The genuine Virgin Oil of Pine compound pure is a combination of the active principles of the Pine and Santalwood, retaining the well-known healing properties of those trees. To insure its freshness and purity, it is put up for dispensing only in half-ounce vials, each vial securely sealed in a round wooden case. Be sure to use the genuine, prepared only by Leach Chemical Co., Cincinnati, O.

"These almonds look nice," said Mrs. Schoppen, "but isn't the price high?" "Well," replied Skinner, the grocer, "the paper trust has advanced prices awfully." "What has that to do with the case?" "Why, madam, these are genuine paper shell almonds."

REPUBLICAN ORGAN ENDORSES DEMOCRAT FOR STATE TREASURER.

THE CLEVELAND NEWS OUT OF LINE

Prints a Two-Column Cut and Lengthy Editorial Explaining Why It Cannot Support the Candidate Repudiated.

Cleveland, O., Oct. 30.—The Cleveland News, republican, prints a two-column cut and a long editorial endorsing David S. Creamer, democratic candidate for state treasurer.

It discusses at length the legislative investigation of the treasury, condemns the candidacy of Charles C. Green in strong terms, and says that Creamer is "well qualified for his office. He is well thought of in his own community, where he has served as recorder and in other public, semi-public and private capacities.

"Creamer is a good, clean candidate, an excellent type of honest American manhood. If elected he is not likely to prove the kind of state treasurer who considers the public funds none of the public's business."

AFTER THE GRIPPE

Vinol Restored This Man's Strength

"Several years ago I was attacked by a severe case of grippé, which left me with a hacking cough, soreness in my chest, and bronchitis. I took nearly every kind of cough syrup sold on the market, besides medicine given me by physicians.

I received no permanent relief until my druggist asked me to try Vinol, and after taking three bottles I was entirely cured.

I believe Vinol to be the greatest blessing ever offered to the public, as it does what is claimed for it." R. E. R. Hicks, Maplesville, Ala.

The reason Vinol cures chronic coughs, colds and pulmonary troubles is because it contains tonic iron and all the healing and body building elements of cod liver oil but no oil.

Vinol is also unexcelled as a strength builder for old people, delicate children, weak and run-down persons, and after sickness.

IS MAKING MANY HAPPY

THOUSANDS OF PEOPLE FINDING FIRST RELIEF FROM STOMACH MISERY.

CURED OF DYSPESIA PROMPTLY

Powerful Digestive and Antacid Overcomes Stomach Trouble—Why Not Get a Little Diapiesin and Have This Misery Over With.

Every family here ought to keep some Diapiesin in the house, as any one of you may have an attack of indigestion or stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a sour stomach five minutes afterwards. If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Ask your Pharmacist for a 50-cent case of Paper's Diapiesin and take one triangle after supper tonight. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Paper's Diapiesin is a certain cure for all stomach misery, because it will take hold of your food and digest it just the same as if your stomach wasn't there.

Actual, prompt relief for all your stomach misery is at your Pharmacist, waiting for you.

These large 50-cent cases contain more than sufficient to cure a case of Dyspepsia or indigestion.

If You Need Medicine—Quickly don't wait to go for it. Call the Arlington and say "hurry."

LOW BARN FLOOR TRUCK.

Will Prove Convenient for Moving Heavy Barrels, Boxes, Etc.

A hand truck for use on the barn floor where heavy barrels and boxes demand occasional movement can be made after the method shown in the accompanying illustration. This plan consists of nothing more than taking two 4x4s

about two feet long and connecting them by mortising in two 3x3s and adjusting castors to each of the four corners. Any one who adopts such a plan, says the Prairie Farmer, will find that it is a good convenient article.

Use a Line.
The first rows of the garden should always be laid out by a line to make them perfectly straight and if a hand drill is not used a garden marker with three or four legs is very convenient. If possible the rows should not run north and south because it admits of the sun's rays better on both sides of the small plants.

WON LAWYER OVER

MOTHER'S LETTER WAS BOY'S BEST REFERENCE.

Good Advice and Honest Praise Contained Therein Started Youth on Business Path That Led to Prosperity.

John Travers was 15 years old when he applied for a place in the office of a well-known lawyer, who had advertised for a boy, but he had no references. The lawyer glanced him over from head to foot.

"A good face," he thought, "and pleasant ways." Then he noted the new suit—but other boys had appeared in new clothes—saw the well-brushed hair and clean-looking skin. Very well, but there had been others here quite as cleanly; another glance showed the finger-nails free from soil. "Ah! that looks like thoughtful ness," he thought.

Then he asked a few rapid questions, which John answered directly. "Prompt," was the lawyer's thought; "he can speak when needs say."

"Let me see your writing," he added aloud.

"Very well; easy to read and no flourishes; now what references have you?"

The dreaded question at last. John's face fell. He had begun to feel some hope of success, but this dashed it. "I have not any," he said, slowly. "I'm almost a stranger in the city."

"Can't take a boy without references," was the rejoinder, and as he spoke a sudden thought sent a flash to John's cheek.

"I have not references," he said, with hesitation, "but there is a letter from mother I just received."

The lawyer took it. It was a short letter:

"My Dear Son: I want to remind you that whenever you get work; you must consider that work your own. Don't go into it, as some boys do, with a feeling that you will do as little as you can, and get something better soon; but make up your mind you will

do as much as possible and make yourself so necessary to your employer that he will never let you go. You have been a good son to me. Be as good in business, and I am sure God will bless your efforts."

"H'm," said the lawyer, reading it over a second time. "That is pretty good advice, John—excellent advice. I rather think I will try you."

John has been with him six years and last spring was admitted to the bar.

"Do you intend to take the young man into partnership?" asked a friend lately.

"Yes, I do; I could not get along without John."

And John always says the best reference he ever had was mother's good advice and honest praise.—New York Weekly.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablets—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are restless, nervous, it's blood congestion—blood pressure. That surely is a fact in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Brise your finger and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

No Half-Clad Hope.

If we were a sculptor we wouldn't use a woman half clad, with yearning eyes fixed upwards, as a figure of "Hope"; a better illustration would be a man with overalls on, who has planted garden seeds, and is looking to see if the neighbors' chickens intend to let them come up.—Atchison (Kan.) Globe.

A Lovely Complexion Without Powder or Rouge

A Simple Toilet Preparation Made at Home That Will Work Wonders Toward Beautifying Your Complexion.

(From the Chicago Record-Herald.)

The following toilet preparation is perfectly harmless to the tenderest skin, and in thousands of cases has made complexions soft and velvety and has brought a tinge of roses to sallow cheeks. Obtain at your drug store, rose water, 2 ounces; cologne spirits, 1 ounce; Epsom salt, 4 ounces. Put the Epsom salt in a pint of hot water (not boiling), and after dissolving strain and let cool. Then add the rose water and cologne spirits. In order to follow directions exactly, it is best to mix the ingredients at home. The above quantities are sufficient to last many months and are so slight in cost that the wash is well within the reach of all. Applied daily it will work wonders with the plainest of complexions and its use renders powder and rouge entirely unnecessary. How often have you admired and envied the fresh, blooming complexion of some young girl you saw? You can have it yourself.

MONUMENT TO HERO

THE KOSCIUSZKO STATUE WILL PLEASE WASHINGTONIANS.

Designed for Lafayette Park, the Work, It is Declared, Will Be a Welcome Addition to Statuary of the Capital.

The Kosciuszko monument which is to be erected at the northeast corner of Lafayette park, in Washington, will harmonize in general characteristics with the statues of Lafayette on the Pennsylvania avenue front of that park and with the statue of Baron von Steuben which is to be erected at the northwest corner of the park. It is stated on the authority of Col. Bromwell, the engineer officer in charge of public buildings and grounds, that the erection of the Kosciuszko monument at the point indicated will not interfere in the least with the large American elm which stands at the northeast corner of the park.

That tree is said to be the finest specimen of its kind in the District. The members of the Cosmos club, on the opposite corner, and others interested in the preservation of the tree secured a personal promise from President Roosevelt that the location of a monument at that corner would not be permitted to interfere in any way with the trunk or roots of the "grand old tree."

Antonio Popiel, who designed the Kosciuszko monument, has a high reputation on the European continent as a sculptor and is the author of many artistic creations. He was born in Galicia, Austria, in 1865, and after completing a grammar school course studied at the art academies of Krakow, Vienna, Berlin, Florence and Paris. On completing his professional studies he was appointed professor of sculpture at the Imperial and Royal Polytechnic schools at Lemberg. He made many decorations in relief and several monuments at Lemberg and other cities in Poland. He won many prizes in artistic competitions, including the first prize among 20 competitors for the Kosciuszko monument. President Roosevelt took an active interest in the Kosciuszko competition, and it was on his strong personal recommendation that the award was given to Mr. Popiel's design.

The figure of Kosciuszko, which is the leading feature of the monumental group, represents Kosciuszko in the uniform of a general in the United States army. He stands in an easy and natural position, his left hand resting on his sword and his right hand holding a scroll representing plans of a fortification. The figure is 11 feet high and will be cast in bronze.

In addition to the statue proper, there will be two groups on opposite sides of the base, one representing Liberty and the other Fraternity. These will be flanked by two hemispheres sur-

FOUR WOMEN ARRESTED

CHARGE IS RUNNING A CLEAR-

NEW YORK.

HELD ON A BOND OF \$2,000 EACH

Detectives Found a Book Containing
the Addresses and Telephone
Calls of 400 Alleged Im-
moral Resorts.

New York, Oct. 30.—While searching for 15-year-old Fanny Collins, who disappeared from her home in Washington street a few days ago, agents of the Society for the Prevention of Cruelty to Children discovered what is believed to be a "clearing house" for young girls, who afterwards were placed in questionable resorts all over the city.

Four arrests were made by the Gorry agents, and the prisoners were held in \$2,000 bail each by Magistrate Crane.

In possession of the manager of the "clearing house" the detectives found a book containing the addresses and telephone calls of 400 alleged resorts which were supplied with girls "upon demand."

The four prisoners arraigned are Francis Taylor, Mrs. Carrie Duncan, Margaret Sheppard and Mary Dale. They are charged with abduction. Francis Taylor is said to be the head of the alleged "clearing house."

Still Being Built in Washington.

An illicit still, one the collector of internal revenue does not know anything about, is being built within the traditional stone's throw of the bureau of engraving and printing in Washington. That is the place where all the stamps supposed to be put upon alcoholic liquor packages are engraved and printed. This distillery is being built around a very high telephone pole. It will shortly be one of the most perfectly appointed distilleries in the country. Dr. Harvey W. Wiley, chief of the bureau of chemistry of the department of agriculture, is superintendent of the construction of it, and when the fires are started and the properly prepared mash begins bubbling the pure food expert will begin making high class stuff.

First, he is going to use watermelon rinds, sweet corns, and other things the like of which are thrown into the garbage on the farms of the country. He is going to convert the sugar in these waste products into alcohol, which in turn will be denatured so as to make it unfit for use as a beverage.

His primary object is to show how the farmer, by using garbage, can provide fuel for running the farm engine—one of the internal explosion kind. Congress passed the denatured alcohol bill two years ago, but as yet the farmers are not taking much interest in their privilege. Dr. Wiley intends to show them a few things.

RUMBLINGS OF THE RAIL

TWO RAILWAYS IN ILLINOIS RAISE WAGES DURING THE PAST YEAR.

COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

President H. I. Miller, of the Chicago & Eastern Illinois and the Evansville & Terre Haute railroads, calls attention to the large increase in the pay of nearly all classes of railroad employees in the last year. In the annual pamphlet reports of the two roads which were issued Wednesday.

On the Chicago & Eastern Illinois wage increases were made a year ago, which caused a difference of \$190,000 in the cost of the year's operations, the increase in the pay roll amounting to 5.55 per cent. The Evansville & Terre Haute increase amounted to 5.59 per cent, or \$47,000. The traffic figures on both railroads are much the same as those of most of the railroads that have issued their reports. The business depression is reflected in the freight earnings, the Chicago & Eastern Illinois revenue from this source decreasing \$756,973, or 8.2 per cent, and the Evansville & Terre Haute showing a decline of \$74,165, or 4.9 per cent.

Reduction in passenger fares forced by 2-cent laws evidently stimulated travel, for in spite of the panic, passenger earnings on the Chicago & Eastern Illinois increased \$39,223, or 2.4 per cent. Mail revenues increased 8.9 per cent, while express revenues increased 24.5 per cent.

Promotion of Sedalia Boy.
Munson Goodyear, son of Mrs. C. A. Goodyear, of this city, had his picture in the St. Louis Star and Chronicle of yesterday afternoon, together with the following:

Promotion of W. P. Overby, of the local ticket office of the M., K. & T. road, will become effective Monday next. Mr. Overby will, on that day, be "checked" out of the St. Louis local ticket office and leave the following day for Chicago, where he becomes traveling passenger agent for the line in Michigan territory. During a long term of service in the local ticket office Mr. Overby has earned popularity and his associates here regret his departure.

A. Munson Goodyear, who has been assistant ticket agent at Muskogee, Ok., was promoted to fill the vacancy of assistant in the city ticket office of the line here. He is 20 years old. Goodyear will report at the St. Louis office Monday to relieve Overby.

Vacancies for Brakemen.
A vacancy for two brakemen with Conductor C. E. Johns on local freight trains Nos. 97 and 98, with Sunday layover at Jefferson City, was announced at the local offices of the Missouri Pacific today.

Other vacancies announced were as follows:

For one brakeman with Conductor B. R. Cromley on trains Nos. 97 and 98 with Sunday layover at Myrick.

For one brakeman with Conductor P. L. Swickhamer on preferred runs in place of J. Huff.

All applications for same must be on file with Trainmaster C. M. Hunt not later than November 4.

Engine Turns a Somersault.

The Chicago-Duluth limited passenger train, northbound, jumped the track near Augusta, Wis., yesterday. A number of passengers and trainmen were injured, but none dangerously.

The escape from fatalities seemed almost miraculous, as the train was going forty miles an hour. The engine turned a complete somersault and all the cars rolled over.

G. H. AYERS The Man for Sheriff

When you go to the polls next Tuesday, please remember that we will have another local option fight in the next four years, and the sheriff that you elect on Tuesday will be the sheriff that will be in office.

We realize that we will not be able to have a policeman that will give us an even square deal, and we would like to have one law-enforcement officer that will do his duty in giving us only a square deal. Just ask the various candidates when they ask you for your vote how they voted last June—DRY or WET—and when a man either votes WET or goes fishing to not vote either way, you can guess at what kind of a deal he will give us on the saloon fight next time.

If G. H. Ayers is elected sheriff next Tuesday, you can just depend upon us getting a fair shake at it, if it is in his duty to GET it. That is just why the saloons are against him, so they know HE won't line up with them. Can't we depend upon YOU to help us get an officer that we KNOW will do his duty? Are we asking too much for but ONE office? We are not asking for your support on the state, national or city ticket, but for ONE and ONLY one county office.

MURDERED MAN IN A SACK

Shot, Throat Cut, and Back of His Head Crushed.

Detroit, Oct. 30.—The almost nude body of an unknown man, 35 to 40 years old, was found yesterday in a sack, bound with ropes and a driving rein in Lapham's Lane, Springwells township, near Michigan avenue.

The man's throat was cut from ear to ear; there was a bullet hole in one temple, and the back of his head was crushed in. Apparently he had been dead three weeks.

The body was partly concealed by a quantity of straw that had evidently been placed there to hide it.

MISS ELKIN MARRIED

NEWS IN REGARD THERE TO BE HELD UNTIL AFTER THE ELECTION.

EVERYTHING WH SECRETLY NO

Alliance With De Endangers Republican Ticket West Virginia, Says a Speech From The State.

Elkins, W. Va., Oct. 30.—Miss Katherine Elkin yesterday took out a fire insurance policy covering a special wardrobe, which is believed to be her trousseau. The amount of the policy is not made known, but it favors a wardrobe and jewelry and extends for a month. It was the intention of Sator and Mrs. Elkins to return to Washington the latter part of next week, but on receipt of a cablegram yesterday Mrs. Elkins decided to remain here for some time longer.

Preparation are now being made to keep the Elkins home and the palatial home of ex-Senator Gasaway Davis, Mrs. Elkins' father, open for at least another month. It is believed that the Duke of Abruzzi immediately upon his arrival in this country will come at once to Halliehurst, the Elkins country home, to spend a week or more before the wedding, which, it is said, upon reliable authority, will take place soon.

Every day Miss Elkins throws additional precautions around her movements here, even the most trifling. She has given orders that no one shall receive her mail, not even the immediate members of her family. She attends to everything personally, from the mailing of letters to the sending of cablegrams.

Many handsome gowns have been received within the last few days by both Mrs. Stephen B. Elkins and Mrs. Blaine Elkins. Four old family servants, who have been in the employ of Mr. Blaine Elkins' family in Charleston have been ordered here to assist in the big house party, which, it is said, will gather here soon, with the arrival of the duke.

The private car of ex-Senator Davis has been brought here and overhauled by workmen, and can be ready on a moment's notice to go to New York to bring the duke.

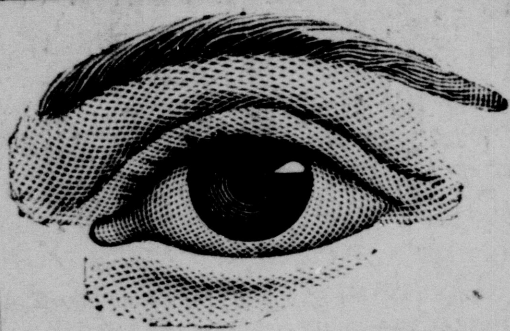

Intimate friends of Senator Elkins state that the exact wedding date, details of the arrangements and where it will take place will be named immediately after the election. Senator Elkins is making one of the hardest fights of his political career for the success of his party, and, knowing the strong feeling that obtains here against the foreign alliance for his daughter, has deferred making any official statement regarding the wedding just at this time.

The widely discussed approaching wedding of Miss Elkins to the duke has been dragged into the campaign in this state, and at a democratic meeting here last night one of the principal speakers said that with a

continuous republican administration Roosevelt would be crowned emperor of the United States and Senator Elkins made Duke of West Virginia.

So intense is the opposition expressed by the miners and mountaineers about here to a royal marriage for his daughter that Senator Elkins' most intimate political friends and advisers have informed him that an announcement of the approaching wedding at this time would mean the defeat of the republican gubernatorial candidate, who is known as Senator Elkins' personal choice.

ALL HALLOWE'EN PRANKS

IN NO OTHER CITY IN THE WORLD IS IT CELEBRATED LIKE IT IS IN PARIS.

COMMENCED OBSERVANCE TODAY

A General Merry-Making Will Be inaugurated Tomorrow Evening—Preparations Have Been Going Forward for Days.

Paris, Oct. 30.—In no other city in the world is All-hallow-e'en and the following All Saints' and All Souls' days celebrated, so generally as in Paris. The observance commenced today with ceremonies at different places in honor of the distinguished dead. In the chapel of St. Denis there was held this morning a mass in memory of Marie Antoinette. Other French notables honored included Heloise and Abelard, Voltaire, Rousseau, La Fontaine, Moliere, Felix Faure, Baudelaire, Guy de Maupassant and the sculptors, Rude and Bartholdi.

Tomorrow evening All-hallow-e'en will be marked by a general merry-making, and on the following day all Paris—at least, all part of it not atheist or agnostic—will go to church. The Frenchman who has not broken entirely with christianity goes to church at least once a year, and next Sunday will be the appointed day for thousands to attend divine services who have not done so since last All Saints' day. Monday will usher in All Souls' day, la Fete des Morts, the day of prayer for the souls of the dead.

Preparations for this service have been going forward for days. Weeds and fallen leaves have been removed from the resting places of the dead, and the old wreaths remaining from the last celebration of the day are replaced by new ones, either of real

or artificial flowers. It is one of the most important festive days of the whole year, and the houses of dead friends must be put in order to receive the visitors that will surely come. Strangest of all, to American eyes, are the little covered baskets or vases, that are placed before the doors of the tombs. Into these visiting friends drop their cards that the family of the dead may know who have paid their respects. Special services are held at all of the churches, and, out of respect to the dead, all business is suspended.

Every one visits a cemetery on this festival of beautiful sentiment. If one has no grave especially dear, there are the graves dear to one's friends, which one must visit and decorate. If one has no friends, one goes just the same and takes a flower, a rose perhaps, or a bunch of violets, prepared to lay the little offering of sympathy on the grave of a once poet, painter, sculptor, or that of any man who bore an honored name.

Some of the principal ceremonies center about Pere Lachaise, set high on a hill, with all the beauty of age clustering about it. On top of the hill, in front of the chapel where one goes to pray for the souls of the dear departed, is the monument created by the French government in memory of the soldiers who fell while defending that height in 1870-71. It is a pyramid of beautiful granite, with four bronze statues of soldiers, the work of Schroder and Lefebre. When visiting this famous place, so filled with romantic history, who does not linger before the ancient tomb of Abelard and Heloise? There they lie together, side by side, under a Gothic canopy—marble effigies! An iron railing surrounds the tomb, shutting out intrusion, but over it sentimental souls toss lightly a bunch of flowers in memory of these immortal lovers. Strict truth compels one to add that the canopy over the tomb is quite modern, though included in it are a few fragments from the old abbey of which Heloise was abbess. And the old wreaths remaining from the last celebration of the day are replaced by new ones, either of real

chapel in the old college de Beauvals.

Near this interesting tomb is the grave of Alfred de Musset, to which sentiment always attaches itself. Over it stands a marble shaft surmounted by a bust of the poet, and on its base is engraved a verse from one of his poems. Beloved Balzac sleeps near, and the famous Dus de Moisy, the minister and the half-brother of Napoleon III—the original, it is said, of Mora, in Daudet's novel of "The Nabob." Felix Faure's tomb is composed of a splendidly handsome bronze figure recumbent on a marble slab. It was lavishly flower-decked and picturesquely guarded today by soldiers in full dress uniform. The French government wisely recognizes and guards against the all ways present danger of an uprising of the mob on a holiday.

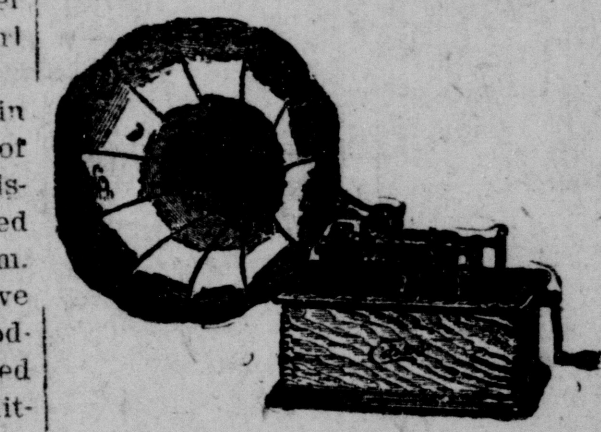

The cemetery of Montmartre draws crowds of visitors. Once called the Champs de Repos, it is now on ordinary days less depressing than some of the other cemeteries. The little chapels are more divided by trees, and therefore their purpose is less in evidence. The bones of many famous men rest peacefully here. Interesting to visitors were the tombs of Theophile Gautier, Henry Murger and Heinrich Heine, also of Carl Vermet and Greuze.

Among the most notable graves in the Montparnesse cemetery is that of Guy de Maupassant, who died miserably, his brilliant brain clouded and obscured, in an insane asylum. For a long time the simple grave was quite unmarked save by a wooden cross. Now the cross is replaced by an arch of Stein marble. The little piece of ground in front of it is crowded with living flowers, placed there by friends to whom his memory is dear. Stricken in the height of his fame, but before wealth had come, and dying alone, he was buried by the Society of French Dramatists.

Here also is the burial place of the sisters of charity, and famous among them lies Sister Rosalie, called lovingly "the Mother of the Poor." Strewn thick with flowers was this

lowly resting place on the day of the dead.

Each year the prefect of police, M. Lepine, goes with his staff to lay wreaths on the monuments erected to the memory of policemen victims of duty, brave firemen, and to those who died during the war of 1870-71. Besides this, countless societies perform similar pilgrimages to the tombs to decorate the columns built there in honor of those who lost their lives defending the outworks of Paris during the siege. Verily, the French do not forget their famous men, however much they may please to persecute them in life.

TO BE 75,000 IN PARADE

BUSINESS MEN'S REPUBLICAN ASSOCIATION OF NEW YORK AT HEAD.

TAFT DEMONSTRATION SATURDAY

Democrats Will Have Their Celebration Next Tuesday Night, When the Return, Will Show Mr. Bryan's Election.

New York, Oct. 30.—With Rear Admiral Coghlan as grand marshal and Commander W. B. Franklin chief of staff, 75,000 New York business men will march through the downtown streets tomorrow in a great Taft demonstration.

The affair has been promoted by the Business Men's Republican association, and every line of trade in the city will be represented in the imposing pageant. Many millionaire bankers and brokers have signified their intentions of taking part in the parade.

The line of march probably will be from Bowling Green up Broadway, through the heart of the downtown business district to Waverly place, and across to Fifth avenue and to Fortieth street.

There will be a reviewing stand at Madison Square, where the marching business men will be reviewed by the vice presidential candidate, Jas. S. Sherman; Secretary of State Elihu Root and others.

An interesting announcement of the committee is that nearly 3,000 lawyers are expected to be in line. Brass bands have been collected from every part of New York state, Connecticut and Massachusetts.

WILL BET 3 TO 1 ON COWHERD

Sporting Men Also Wager His Majority Will Be 10,000.

St. Louis, Mo., Oct. 30.—St. Louis sportsmen who are in the "political game" only for the money are now betting that Cowherd will run 10,000 ahead of Hadley in Tuesday's election. They are wagering 3 to 1 that Cowherd will be elected.

The odds are now 5 to 1 on Bryan carrying Missouri and 2 to 1 that he will receive a majority of 15,000 in this state. Betting on the United States senatorial contest between Senator Stone and Governor Folk is about even.

Mark Gumberts says he has \$15,000 to bet at 3 to 2 that Cowherd will defeat Hadley in the gubernatorial contest.

DIVORCE TO BE AN ISSUE

IT WILL FIGURE IN THE ELECTION IN SOUTH DAKOTA NEXT TUESDAY.

THE BATTLE IS WAGING MERRILY

Present Law Requires a Residence of Only Six Months in State to Become a Resident—New Law a Year.

Sioux Falls, S. D., Oct. 30.—Whether South Dakota will retain its reputation as the commonwealth where divorces are granted "while you wait" is one of the issues to be decided in the election in this state next Tuesday.

On one side is ranged the lawyers, the hotel keepers, and a great many business men who believe that the divorce industry should be maintained and nourished as one of the material assets of the state's prosperity; opposed to these are thousands of farmers, clergymen and business men who believe that the present divorce law is a disgrace to the state and that it should be wiped out and a more stringent statute substituted.

The battle is waging merrily, and in the meantime the members of the Sioux Falls divorce colony who have not yet received the magic pieces of paper that spell liberty from matrimonial infelicity are occupying the anxious seat. Present appearances indicate that the new law will receive a sufficient number of votes to make it effective.

The present law requires only six months' residence in order to become a citizen of the state, and permits the holding of hearings in divorce cases in chambers, which tend to make many of them the "star chamber" variety. This enables divorce applicants of prominence practically to secure secret divorces by preventing the newsmen from getting the particulars of the hearings, or even the fact that a divorce has been granted in a particular case.

There are hundreds of instances in the last few years in which society leaders of the larger cities of the United States, of Europe and elsewhere and men and women of wealth from various countries of the world have established residences in South Dakota, and at the expiration of the six months' period have quietly obtained their divorces and disappeared without anyone being the wiser and without the newsmen being able to get the slightest information in regard to a particular case, the details of the divorce cases having been effectually concealed.

The suppression of the details of hearings in divorce cases in which the parties concerned did not wish any publicity has done more to make the present divorce law unpopular than any other feature of the whole sale divorce industry of Sioux Falls and South Dakota. The voters generally have believed that there is no more reason why the divorce suits of temporary residents of the state should be suppressed than those of persons who are permanent residents of South Dakota, and have felt compelled to apply to the divorce courts for relief from galling matrimonial bonds.

The new divorce law, which will be referred to the voters at the election next Tuesday raises the period of residence from six months to one year and requires that all divorce actions shall be heard in open court instead of "in chambers," as has been the practice in numerous instances under the present law.

FOR THOSE FOND OF SALADS.

These Directions Will Insure Success at All Times.

To keep the salad oil cruet clear and sweet add a tablespoonful of salt to a quart of oil. The oil will not taste of the salt, as the latter will not dissolve but will sink to and settle at the bottom of the cruet.

In mixing salads the oil should be added first and thoroughly spread before adding the other ingredients and mixing.

Salads which are very moist and cooling—particularly cucumber—should have an extra pinch of pepper added to counteract the chilling effect on the eater's stomach.

Cold string bean salad should have a double dose of vinegar, as beans possess in great degree the nutritious and healthful food salts which develop to perfection in acid.

Whenever it is possible pure lemon juice should be substituted for vinegar as being far more wholesome than the latter.

Endives—the pale, cool, succulently curly chicory—salad should be scalded and then chilled to make it more digestible for elderly folk, children or weak digestion invalids.

What Do They Cure?

The above question is often asked concerning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription." The answer is that "Golden Medical Discovery" is a most potent alterative or blood-purifier, and tonic or invigorator and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder, curing a large per cent. of catarrhal cases, whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), bowels (as mucous diarrhoea), bladder, uterus or other pelvic organs. Even in the chronic or ulcerative stages of these affections it is often successful in affecting cures.

The "Favorite Prescription" is advised for the cure of one class of diseases—those peculiar to women—catarrhs and irregularities incident to women only. It is a powerful yet gently acting invigorating tonic and nerve. For weak women, over-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the various functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A book of particulars wraps each bottle giving the formulae of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines. The words of praise bestowed on the several ingredients entering into Doctor Pierce's medicines by such writers should have more weight than any amount of non-professional testimonials, because such men are writing for the guidance of their medical brethren and know whereof they speak.

Both medicines are non-alcoholic, non-secret, and contain no harmful habit-forming drugs, being composed of glyceric extracts of the roots of native American medicinal forest plants. They are both sold by dealers in medicine. You can't afford to accept as a substitute for one of these medicines of known composition, any secret nostrum.

Dr. Pierce's Pellets, small sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels.

His Somnolent Influence.

NEAR TO NATURE

When Tom's Enthusiasm Was Dampened.

The girl with the pearl eardrops smiled dubiously. "I'm afraid I can't show enthusiasm over the project the way you do, dear," she said. "In fact, I think it was awfully foolish of Tom to go. I hope he will give it up and come back to his law work. In theory it is not so bad, but it really doesn't appeal to me as a practical proposition."

The girl with the coral dinner ring looked superior. "It is all a question of temperament," she replied. "Doubtless a person with frivolous aspirations would feel buried alive on a western claim, but I can sympathize with Tom in his viewpoint. To a person of depth and soul there is nothing more glorious than a life close to the heart of nature. I am glad that I strongly advised him to go. It is delightfully poetic."

"Well, the land can't be worth very much, or it wouldn't be given away," said the girl with the pearl eardrops, with a badly suppressed yawn.

"Of course, you pay a little for it," explained the girl with the coral dinner ring. "Just about 50 cents an acre. Then you have to live upon it six months and grow fruit trees and grain and such things, and it's yours."

"I had a letter from Tom yesterday," she went on, "and he is wildly enthusiastic. His tent was pitched and he was living the freest kind of a life. He catches rabbits every night for his dinner, does his own washing and cooking, and every day brings a supply of water from the river, three miles away. Can you imagine anything more glorious than to live out there in communion with the beauties of nature?"

"Of course, he hasn't been there long," remarked the girl with the pearl eardrops.

"Long enough to appreciate it all, though," retorted the girl with the coral dinner ring. "Tom says he can't get across the country, with the exhilarating breezes from the far-off mountains fanning his cheeks, and the sun sinking like a ball of fire in a bed of endless green landscape. He comes back with a ravenous appetite for broiled rabbit, cooked over the camp fire."

"I should hate to peel the rabbit for cooking," murmured the girl with the pearl eardrops, giving a squeamish shudder.

"Well, there are some people who never can rise above dances and dinners and automobile parties. Personally I can see nothing in such empty pastimes. Just think of Tom working there in that glorious, primitive way!"

It was little over a week later that the girl with the pearl eardrops dropped in again to see the girl with the coral dinner ring. "My dear, isn't it lovely that Tom is coming back so soon?" she exclaimed by way of greeting.

"What do you mean?" asked the other girl.

"Why, I had a letter from him this morning and he said he was coming back to civilization as fast as the train could carry him."

"The girl with the coral dinner ring looked amazed. "But he was so charmed with the life! What has happened? In his last letter—"

"Well, in his letter to me he says he cannot imagine how he could have been such a donkey. He says he wishes he had listened to my advice instead of some other people's."

"But what has happened?" demanded the girl with the ring.

"Everything," replied the girl with the earrings, comprehensively, in an exultant tone. Then she condescended to explain. "Tom said the novelty of it all kept up his enthusiasm for the first week in spite of the fact that he had become an animated bunch of polka dots from the mosquito bites. The next week it started to rain. One night there was such a storm that his tent was torn up and he was nearly drowned. Well, it kept on raining for the next two days and Tom couldn't get a dry twig to build a fire. Everything he had was simply drenched. His blankets and clothes were wet and soggy and he felt a dreadful cold starting in his system. He couldn't get his tent pitched again, for the pole was broken, and of course he couldn't cook anything. He just sat on a box with his tent wrapped around him and sneezed and coughed and wished that the rain would stop."

"Why didn't he take his horse and ride to the town?" asked the girl with the coral dinner ring.

"It kept on raining and raining," pursued the girl with the earrings, relentlessly, not heeding the question. "The crisis was reached when his horse broke its grazing rope and got away. Tom realized that he had to get to the town somehow, so he walked 25 miles in the pouring rain! He said something about rattlesnakes, too."

"O don't! Poor Tom! Where is he now?" implored the girl with the ring.

"He is on his way home by this time. He wrote me from the town hotel and he said he would start in a day or two if his stiff joints would permit him to do so."

"How awful!" murmured the girl with the coral dinner ring.

MARRIED WOMEN

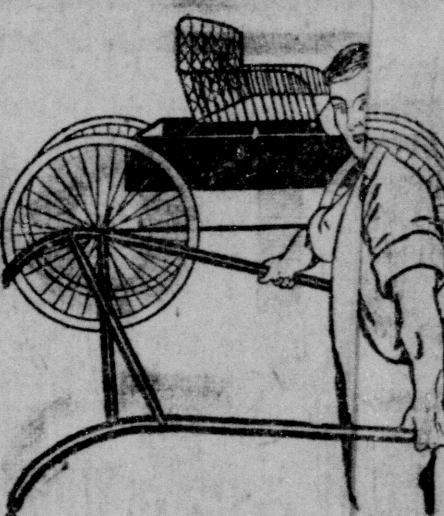

Every woman covets a shapely figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All this can be avoided by the use of Mother's Friend before and after, as this liniment prepares the body for the strain upon it, it preserves the symmetry of her form. Mother's Friend makes the danger of child-birth less, and carries her safely through this critical period. Thousands gratefully tell of the benefit and relief derived from the use of this remedy.

A BAPTIST CENTENNIAL

WEEK'S CELEBRATION BEGAN
AT NORTH ADAMS, MASSA-
CHUSETTS TODAY.

WILL READ HISTORY OF CHURCH

Berkshire Baptist Ministers' Asso-
ciation Will Meet Monday—
Next Wednesday Will Be
Women's Day.

North Adams, Mass., Oct. 30.—
Many prominent New England Bap-
tists are here today to take part in
the week's celebration of the centen-
nial of the local Baptist church,
which begins today.

The opening program this after-
noon will consist of old time reu-
niscences and the reading of the his-
tory of the church.

The Rev. R. S. MacArthur, D. D.,
of New York City, will give a sermon
in the evening. Excursions and visit-
ing will consume the time on Satur-
day.

Sermons and addresses will be given
on Sunday by the three living for-
mer pastors of the church, the Rev.
A. C. Osborn, D. D., president of
Benedict college, Columbia, S. C.;
the Rev. F. D. Penny, D. D., pastor
of the Baptist church at Burlington,
Vt., and the Rev. Francis H. Rowley,
D. D., pastor of the First Baptist
Church of Boston.

The Berkshire Baptist Ministers' as-
sociation will meet in this city on
Monday. S. Adelbert Wilner, organ-
ist of the church, will give a recital
on the new organ in the evening.
Tuesday will be devoted to missions.
Music will take up the time of the
evening, when "The Holy City" will
be rendered by the choir. Wednes-
day being Women's day, appropriate
services will be held.

FOR THE HOUSEWIFE

VARIOUS HINTS THAT WILL BE
FOUND OF VALUE.

To Remove Glass Stains—Taking Mil-
dew from Delicate Fabrics—
How to Construct Convenient
and Cheap Jelly Bag.

Nutmeg Hint.—Do not begin to
grate a nutmeg at the stalk end, or
it will prove hollow.

Glass Stains.—Rub with lard and
leave an hour before washing.
Ink Stains.—Soak in sour milk for
some time. If a dark stain still re-
mains rinse in a weak solution of
chloride of lime.

Scorch Stains.—Wet the scorched
place, rub with soap, and bleach in the
sun. If only slightly scorched, just
hang in the sun till scorch disappears.

Mildew.—Soak in a weak solution of
chloride of lime for several hours;
rinse in cold water.

Lemon Juice in Rice.—When boiling
rice add a little lemon juice to the
water, as it causes the rice to sepa-
rate nicely and makes it whiter.

Fine Jelly Bag.—A convenient
strainer or jelly bag is made by cut-
ting a circular piece of cheesecloth
the desired size and sewing it upon an
embroidery hoop. Fasten a stout cord
at two opposite points of the hoop.
When you wish to strain the jelly, at-
tach these cords in such a way that
the bag will hang free from any con-
venient place.

Brilliant Polish.—One teaspoonful
ground alum added to stove polish will
give a brilliant luster.

Care with Cakes.—Don't close the
oven door with a bang when a cake is
baking; the jar will often cause the
cake to fall or make it heavy.

Stew Meat.—In stewing, cut the
meat into small pieces and put into
cold water. The temperature should be
raised slowly until it reaches about
180 degrees F., where it should be
kept for some hours. Treated this
way, the broth will be rich and the
meat still tender and juicy.

BLIND AS TYPISTS

INVENTION OF TYPEWRITER IS
BOON TO SIGHTLESS.

Braille Alphabet Results in Perfection
of New Sort of "Mill"—Some Ob-
jections Regarding the Meth-
od of Teaching.

The introduction of the extreme
simplicity of the Braille alphabet for
the blind has been speedily followed by
the invention of a machine that writes
that character with great rapidity and
ease, relates the New York Sun.

Most persons know of books printed
for the use of the blind and employing
an embossed character for finger read-
ing wherein the attempt has been
made to preserve the outlines of the
Roman alphabet. That type has prac-
tically gone out of use except for those
who acquired it long ago and are not
inclined to change.

The objection to this character is
that it may not readily be deciphered
by touch. For such as have lost their
sight after they have acquired the
art of reading visually it was supposed
that it would be easier to recognize
by the sensitive finger tips forms al-
ready familiar to the eye. In the case
of those born blind or becoming sight-
less in their early years this supposed
advantage cannot exist.

The Braille character discards whol-
ly all idea of resembling the Roman
alphabet. It has been thought out
with the sole purpose of making the
best and most facile use of the tac-
tile sense.

Its fundamental element is a cell
of six embossed dots, each as large
as the head of a good-sized pin, the
dots arranged in two vertical columns
of three each, the two columns so
closely approximated as to establish
the unity of this cell, yet sufficiently
far apart to admit of distinct touch
sense of the individual dots. The sev-
eral letters are formed by the em-
ployment of one or more of these em-
bossed dots, identification depending
upon the number of these dots and
their position in the fundamental cell.

The most common vowel in English,
e, is represented by a single dot; this
is differentiated from the only other
letter represented by a single dot, a,
by the fact that a is made from one
of the dots in the upper line of the
cell, e by a dot in the middle line.
The more frequent letters are repre-
sented by combinations of two or
three dots in different positions. The
full alphabet is made without employ-
ing more than five dots, the number in
j, q, x and z.

Because this alphabet is so neat-
ly developed on a scientific basis the
typewriter invented for it is of the
simplest and durable construction.
The unit of the machine is the Braille
cell duplicated.

The paper in its carriage is moved
in a sidewise travel over a small steel
plate having six holes reproducing the
dots of the cell. Over this plate is
firmly mounted another cell plate hav-
ing six rounded depressions to serve
as a matrix.

Any number of dots up to six and
reproducing any position in the Braille
cell may be made by plunger pins
which operate upward through the
holes in the lower plate and force the
paper into the pits in the matrix block
above. These plunger pins are actuated
by cams set in motion by the
touch of the keys.

The keyboard is of the utmost sim-
plicity. It looks like a small section
of a piano, with a white baseboard and
six black keys rising therefrom. Each
key sets in motion one of the plungers
in the cell and by pressing down its
corresponding key one may reproduce
each dot necessary to complete the
character. All the required keys called
for in the character desired are de-
pressed simultaneously and when they
are released the carriage spaces on-
ward along the line of writing. For
space between words there is a space
bar.

The paper employed is a special
grade of very tough manila. This is
essential in order to have a material
in which the plunger pins will emboss
the dots without piercing the paper.

The action of the instrument is only
slightly heavier than that of ordinary
writing machines and a speed of 30 or
40 words a minute is quite within the
reach of an operator as soon as he
has become adept. The writing is
visible; that is, in the blind sense,
the whole line may be read by the
finger up to the last character em-
bossed.

Laugh at Premonitions.

Readers of stories of premonitions
that tell engineers and other trades-
men that danger hovers over them may
be confident on beginning that the hero,
no matter how dark may be the out-
look, will come out alive and covered
with more glory than mud or coal
dust.

Old railroaders laugh when they
read the stories, and, like the person
who always reads such yarns in the
magazines and newspapers, know
without going through all the details
that the engineer, conductor, fireman,
or brakeman, whichever he might be,
would save the lives of all the passen-
gers or do something else in the hero
line before the end.

Railroad men do have premonitions,
but the ones that fail to come out as
they do in the story books are mostly
forgotten, and, lacking in dramatic in-
terest, are seldom told.

THE FUTURE CAN BE TOLD

Prof. Boyer

PROF. BOYER, WORLD FAMED PALMIST AND ASTROLOGIST.

Without asking a question, this strangely gifted man reads your life by a science as unerring as the law of gravitation. He tells you your talents and shortcomings, tells you what you came for, tells you when and whom you are going to marry; in fact, everything that is in you.

He will tell you whether your husband, wife or sweetheart is true or false; he will tell you how to gain the love of the one you most desire, even though miles away; in fact, he will tell you every hope, fear and ambition better than you can tell yourself. He tells you how to regain youth, health, vitality.

If you are sick, he will without asking questions and annoying examinations tell you the nature and the cause of your disease, and show you the way to perfect health and happiness. He has on file at his parlors hundreds of unsolicited testimonials from prominent people from all parts of the world who have been helped by his truly wonderful powers.

He teaches Palmistry, Clairvoyance, Hypnotism and Personal Magnetism, and develops mediums. Call and learn what gifts you possess.

Prof. Boyer is the only palmist in this country who has ever appeared before the London Psychic Research Society, as well as the Boston and Detroit branches of the same. Indorsed by the three. Diplomas and testimonials on file at his office.

"Length of days are in her right hand; riches and honor in her left."—Prov. 3:16.

"In the hands of all men God placed some sign by which they know their work."—Book of Job.

The above quotations are only a few of the many quotations in which the Bible speaks of the hand.

It is wrong to know your weakness, faults and failures and by proper advice and instructions of an able exponent of palmistry, correct them?

"Forewarned is Forearmed."

Gives truthful revelations of all love affairs, troubles, marriages, and by proper advice restores lost affection, reunites the separated, settles lovers' quarrels, etc. Teaches how to control and charm anyone you love or meet. You are told how to avoid weaknesses, warned against all treacherous friends. Locates buried treasures, mines, old estates.

If you are not fully satisfied with your present conditions and circumstances; if you long for a greater success or more money; if you are not able to influence others to the extent you desire, you are advised to learn more of this marvelous power by consulting Prof. Boyer, the greatest living palmist, astrologist and occultist.

FEVER IS AT WHITE HEAT

NEWFOUNDLAND'S POLITICAL CAMPAIGN TO CLOSE TOMORROW.

ELECTION WILL BE HELD MONDAY

Biggest Guns Brought to Bear Upon the Hapless Voters—Each Side is Vehemently Denouncing Its Opponent.

St. John's N. F., Oct. 30.—Newfoundland's political campaign will come to an eventful close tomorrow and the election will be held on Monday, preceding the allotting in Uncle Sam's land by one day. Throughout the tight little colony today political fever is at a white heat and the orators of both the government and opposition are bringing their biggest guns to bear upon the hapless voters.

Newfoundland enjoys an independent government apart from Canada, and at the present moment has serious political differences with both her larger neighbors, a fishery dispute with America and a boundary dispute with Canada.

In the present season, at any rate, any friction is avoided by the fact that Premier Bond concedes to the Americans admission to the herring fishery inlets without restriction, no doubt feeling that it would be unwise to add this disturbing factor to those which already agitate the public mind here. The boundary dispute with Canada serves in a measure to inflame the popular antipathy toward the dominion which is so striking an element of colonial political sentiment.

Newfoundland is the only portion of British North America outside the dominion. The curious feature about the matter is that every public man in the colony is a confederate, or at any rate has declared himself more or less equivocally in favor of confederation, at some time or another, but they are all pledged not to attempt to bring it about unless after decision in favor of it from the people at the polls.

In the present conflict each side is vehemently denouncing its opponent as the confederate party, and the belief that the people can be stampeded in this fashion, as they were in years gone by, is still as prevalent, and possibly may prove as well founded.

A novel feature in the present contest is the fact that the opposition party, which is led by Sir Edward Morris, who until eighteen months ago was attorney general in Premier Bond's administration, and retired from it on the labor question, is a Roman Catholic. More than half a century ago, when autonomous government was first granted, the majority of the inhabitants were Catholics, and the early premiers were of that faith.

Emigration, however, attracted the Catholics largely to America, and the ascendancy swung into Protestant hands. The present premier, Sir Robert Bond, is a Methodist. He and Sir Edward Morris are the oldest members of the legislature. They are, therefore, about equally well equipped for the task of leadership, but the question arises whether the Protestant majority will be prepared to accept a Catholic premier.

The example of Canada is cited by the Morris adherents as a reason for the people of Newfoundland disregarding questions of creed, and electing him as the Canadians elected Sir Wilfrid Laurier, and there is much curiosity evinced as to whether a like result will follow.

The population of 250,000 is distributed in about 1,800 fishing hamlets, great and small, around 6,000 miles of seaboard. To avert the dangers of mercantile and clerical influence in a country where the commercial princes and religious leaders exercise an influence almost unequalled elsewhere, the ballot boxes are brought to the chief town, and there the ballots are mixed up so that no one can tell how any particular place has voted. The returns of the election will, therefore, not be obtainable until about a week after polling day.

A JUDGE OF HORSE FLESH

The Rev. R. A. Hunt, Who Formerly Resided in Sedalia.

Rev. R. A. Hunt can trade as well pray, says the Tipton Times. He always did fancy a fine horse, and he is never so well satisfied as when he is in possession of one or more that attract attention of other horsemen.

Monday Rev. Hunt purchased a nice 5-year-old horse from Thomas Newkirk, at Glensted, and before reaching home he sold it for a profit to a Mr. Biggs, who was here from Sedalia Monday, buying horses.

"Jack" Thomas took pity on Rev. Hunt, who is bathing at present, and gave him his dinner Monday, presumably for the purpose of getting some pointers from him in buying and selling horses.

MAN AFTER THEIR OWN HEAD Convivial Gentlemen Realized They Had Found a Brother.

Not many days ago two men who had dined not wisely but too well boarded one of the pay-as-you-enter cars at the Grand Central.

The car started with a very violent suddenness—so violent that the two cheery gentlemen were thrown off their balance, landing in a heap on top of a very solemn gentleman on one of the seats. This individual had been in the car for some time, and had preserved an austere solemnity of demeanor that was most impressive.

At once the two men who had lost their balance became profuse in their apologies to the solemn one.

"Oh, m' shoshorry—please 'scuse me," requested one.

"Beggardon—couldn't—hic—help—myself," said the other.

The solemn gentleman, who had listened with magisterial severity, now opened his mouth in turn and remarked benignly:

"Oh, thashalright. Car shtarted like—hic—rocket—thashalright."

For a moment they looked at him dazed; then their expressions changed to delighted surprise. In him they had recognized a brother.

And when they got off a few blocks further on, in a region of many cafes their party consisted of three.—N. Y. Times.

SPEND MUCH FOR AMUSEMENT.

Twenty-Five Millions Are Invested in Parks in This Country.

"It costs a lot of money to build and operate an amusement park on a large scale," says Frederic Thompson, in Everybody's.

"I suppose that more than \$25,000,000 are invested in these parks in this country. Dreamland on Coney island cost about \$2,500,000. Riverview Park and the White City in Chicago cost about a million each.

"Luna park cost \$2,400,000. The total annual expenses, including the cost of rebuilding, of putting in new shows and the operating expenses average about a million dollars, and the season lasts four months. I spent \$240,000 on one show, of which \$68,000 was for animals, mostly elephants and camels—it was the representation of the Indian durbar—and I lost \$100,000 on it. I charged the loss up to education, and it was worth it. It costs \$5,600 a week to light Luna park, and \$4,500 for the music. The salaries of the free performers this season are \$2,300 a week. And all of these expenditures, as well as a good many others, go simply to manufacture the carnival spirit."
